MANAGE YOUR PERSONAL FINANCES [MYPF]

LEARNING PROGRAM

The **Demo Module** provides a sneak peak into the MYPF Learning Program. It is a simple “data-entry” module introduction to the program that will allow **YOU** to see how various Microsoft Excel concepts can be combined to create a tool for tracking personal expenses and income.

\$0.00

The **Basic Module** is the 4-hour core component of the MYPF Learning Program. It provides the key components and structure for the development of the Microsoft Excel-based tool for capturing expenses and income. Learn such Excel functionality as SUMIF, Data Validation, 3-D Formulas, etc...

\$99.00

\$179.00*

The **Analysis Module** is the final 2-hour add-on module designed to introduce intermediate and advanced Excel functionality like Charts/Graphs, PivoTables, Scenarios, etc... to assist with “What-If” analysis.

\$50.00***

***This module can't be purchased without the Basic Module & Budget Modules.

The **Budget Module** is a 2-hour add-on module that allows for the input of pre-determined budgets for each of the recorded expenses. Start each month by declaring a “ceiling” to remain below for increased savings potential.

\$50.00**

**This module can't be purchased without the Basic Module.

* \$179.00 is the price for the all three modules, when prepaid, which totals eight (8) hours of customized virtual training.
